

```
public class AddTwoNumbers {  
  
    public static void main(String[] args) {  
  
        int num1 = 5, num2 = 15, sum;  
        sum = num1 + num2;  
  
        System.out.println("Sum of these numbers: "+sum);  
    }  
}
```
